PROFESSIONAL SUMMARY

Creative UI/UX Designer with 10+ years of expertise in design and development since 2015. Experienced across Automotive, Healthcare, B2B, AI, Real Estate, Non-Profit, Education, Web3, and Banking domains. Skilled in designing accessible, user-centered interfaces with strong proficiency in Figma, Sketch, Adobe XD, Webflow, Photoshop, HTML5, CSS3, jQuery, and HubSpot.

WORK EXPERIENCE

Senior UI/UX Designer (Senior Consultant)

Mercedes-Benz Research & Development India (MBRDI) – Capgemini Payroll - (Aug 2023 – Present)

- Engaged with product owners to gather objectives and requirements effectively
- Developed and executed new designs for multiple projects
- Created wireframes, storyboards, user flows, process flows, and sitemaps
- Managed a team of 2 and acted as SPOC for 12 team members
- Led project teams and supported team members to deliver results effectively

UI/UX Designer

iOSys Software India Pvt. Ltd. - (Nov 2017 – Aug 2023)

- Developed and executed new designs for client projects
- Engaged with clients to understand and align with business objectives
- Established and oversaw project budgets, team deadlines, and milestones
- Created wireframes, storyboards, user flows, process flows, and sitemaps
- Demonstrated creative and efficient problem-solving skills
- Led project teams and supported team members effectively
- Supervised a cross-functional team of 10, including 3 Graphic Designers, 3 Junior Designers, and 4 Developers

Senior Web Developer

iOSys Software India Pvt. Ltd. - (Aug 2015 – Oct 2017)

- Deep expertise in HTML5, CSS3, jQuery, and HubSpot
- Developed themes for the HubSpot Marketplace
- Solid experience with responsive and adaptive design techniques
- Managed tasks effectively and prioritized accordingly

RECENT PROJECTS

Mercedes-Benz (OTA Software Enablement)

Web App Design, UX Audits, Web App Re-Design, User Flows, Wireframes, Design System & Prototypes

- Contributed to the development of end-to-end Over-the-Air (OTA) software update capabilities for the C174 platform, enabling future vehicles to support full OTA updates
- Designed and developed multiple enterprise applications supporting the OTA lifecycle, including software packaging, approval workflows, and feature release planning

- Built a multi-level approval system from scratch to ensure controlled and compliant software flashing in vehicles
- Developed a documentation platform for BTVs to manage and track all software-related information
- Created a feature management application enabling release managers to define and monitor target dates across model series
- Designed a centralized notification system to deliver real-time alerts via email and portal for user actions and task assignments
- Collaborated with business product owners to gather and refine requirements through discussions, research, and iterative feedback cycles
- Prepared and presented solution designs, incorporating stakeholder inputs and securing approvals from global teams
- Worked closely with development teams to translate business requirements into functional features and ensure accurate implementation
- Conducted UX audits before production releases to ensure usability, consistency, and quality standards
- Played a key role in enabling systems essential for secure and efficient software deployment in vehicles
- Contributed to the successful launch of the C174 platform

Mercedes-Benz (AI powered Bug simulation tool)

AI-Assisted UX Design, Interaction Design, User Flows, Workflow Automation, AI Feature Design, Usability Optimization, Enterprise Application Design, Product Thinking

- Designed and developed an **AI-powered Bug Simulator tool** enabling users to record screen sessions with audio to report issues seamlessly
- Enabled automatic **conversion of user interactions into step-by-step reproduction flows** using AI, improving clarity for debugging
- Leveraged AI to **generate structured bug descriptions** from user voice explanations, reducing ambiguity for developers
- Streamlined issue reporting by integrating with **ServiceNow ticketing and Azure DevOps (Azure Boards)** for direct bug creation
- Improved developer efficiency by providing **clear reproduction steps, contextual insights, and user-recorded sessions in a single workflow**
- Enhanced overall product quality by reducing back-and-forth communication between users and development teams

Palmspire

UX Audits, Brand Identity Update, Website Re-Design, and Product Marketplace | palmspire.com

- Gathered and analyzed user requirements to inform design decisions and improve user experience
- Conducted UX audits to identify usability issues and enhance overall product usability
- Created wireframes, user flows, and sitemaps to define structure and navigation
- Designed high-fidelity wireframes and interactive prototypes for stakeholder validation
- Optimized onboarding experience by redesigning it into a streamlined 5-step form, improving user conversion
- Developed custom visual assets for blogs, marketplace listings, and website pages
- Designed scalable marketplace pages to support current and future product offerings
- Implemented responsive design principles to ensure seamless experience across mobile and desktop devices
- Managed and executed social media branding to maintain consistent visual identity across platforms

PROFESSIONAL SKILLS

Design Skills: User Experience (UX), User Interface (UI), AI-Assisted UX Design, Interaction Design, User Journey Mapping, User Research, Competitive Analysis, Low and High Fidelity Wireframes, Prototyping, Workflow Automation, AI Feature

Design, Prompt Design (AI), Usability Optimization, Enterprise Application Design, Product Thinking, Design Systems, Website Design, Web Application Design, Mobile App Design, Brand Identity, Logo Design, Figma to Code (React, Vue, etc..) with the help of Figma MCP servers.

Design Tools: Figma, Sketch, Adobe XD, Photoshop, Invision, Azure, Confluence, Procreate

Coding: HTML5, CSS3, jQuery, HubSpot, Sublime Text

EDUCATION & CERTIFICATIONS

Bachelor of Engineering – Mechanical Engineering

Guru Nanak Dev Engineering College, Ludhiana 2011 – 2015

Grey and white belt security training

MBRDI

L1 and L2 Industrial training

Automobile

Figma MCP Certified

Creating design system and generating interactive code from Figma design

HubSpot Design Certified

HubSpot
